

POST 4-Hour TIM class (Las Vegas)

Why this is important... Responders are being struck and killed at traffic incidents in the U.S. on average:

- **5** Firefighters each year
- **1** Law Enforcement Officer each month
- **1** Tow Truck Operator each week

The National TIM Responder Training Program was developed by responders for responders, and was designed to establish the foundation for and promote consistent training of all responders to achieve the three objectives of the TIM National Unified Goal (NUG):

- Responder Safety
- Safe, Quick Clearance
- Prompt, Reliable, Interoperable Communications

The POST 4-Hour TIM course is intended to provide participating first responders the knowledge and materials necessary for clearing critical incidents as quickly as possible and reducing secondary crashes. Scene safety, communication, and relationship building will be emphasized in a multi-agency training approach with a highly qualified instructor cadre from dispatch, EMS, fire, law enforcement, NDOT, and towing.

Details for the June 4 hour TIM class are as follow:

Date: June 27, 2016
Time: 0800 – 1200
Sponsored by: NDOT
Location: NDOT, Safety Training Center
